

AlcoholEdu For College®, 2008-2009

Minimum System Requirements

Outside The Classroom supports a variety of computer configurations for all versions of AlcoholEdu. While we recommend using Internet Explorer 6 and Flash Player 8 or later when taking the course, it will function as long as your computer meets certain minimum technical requirements. Please refer to the matrix below to confirm that your computer meets these minimum requirements. If you are unsure about your system configuration, you may log on to the course and use the information on the Media Settings page to help you identify any missing requirements.

	Windows PC**	Macintosh
Operating System	All common Windows platforms including Vista	OS 8.1 or later
Internet Connection	Broadband or at least 56k Internet access using a dial-up modem	Broadband or at least 56k Internet access using a dial-up modem

*Note: Be sure to always check for our most recent version of these requirements on our AlcoholEdu Hub.

**Note: AlcoholEdu's Media Settings page may not properly detect your system settings in some Netscape browsers.

***Note: The Flash Player is preinstalled on most systems.

Use this button to install or upgrade to the latest Flash player.
